Stone Walls,

NEW YORK, April 15.-The opening game of the championship season in Brook-lyn to-day brought an attendance of over 20,000. It was a gala day in the baseball annals of Greater New York. The game was a battle royal of eleven innings between two as perfectly balanced teams as could be brought together. The pitching of Kennedy and Nichols was superb, the hit-ting, of course, being light in consequence. Both infields were veritable stone walls. Neither side could score for ten innings, and then Boston made the winning run on a wild throw by Jennings that sent Bergen to second and Stahl's drive to center for

PHILADELPHIA, April 15.—It looked like victory for Washington to-day until the seventh inning, when, by opportune hitting, Philadelphia overcame the Senators' lead and won by a close margin. While the game was exciting there was nothing particularly brilliant. Washington had a chance to win in the ninth, when, with one man out and Mercer on second, Hulen went out on a fly to Flick and Mercer was thrown out at the plate. Score:

the weather was not of the baseball variety nearly 10,000 people witnessed the contest, which, with the exception of the two final innings, was an excellent exhibition. Pittsburg outplayed the Reds at every point and was also favored by Dame Fortune. McCarthy deserves the credit for the victory. Twice he pulled down hard drives on the left field embankment after hard runs and at a trying point of the game he drove the ball over the fence in the eighth inning for a homer. This gave his team encouragement and seemed to rattle Hawley. The fielding of Steinfeldt was sensational. Most of the Reds' hits came at the wrong time to net runs, and their efforts to sacrifice were very weak. The usual opening ceremony, parade and a sneeth by Mayor Tafel was indulged in season by Mayor Tafel was indulged in

Kansas 31, Haskell Indians 14.

LAWRENCE, KAS., April 15.—(Special.) The Kansas university baseball team made it three straight from the Haskell Indians by the score of 31 to 14. The redmen tried three pitchers and the 'varsity two. Both teams, on the whole, played a sloppy game in the field and both showed the need of team work. The best work for the Indians was done by Augusta at short. For Kansas, Moore put up a good, clean game behind the bat, and Lucas on third and Housh at second covered their territory well. The series with the Indians has shown that the Kansas team is weakest in right and left and at first, with an erratic man at short. It has been suggested that Andy Freedman can popularize himself by taking some of his \$10,000 salary and pacifying Rusie, Seymour and Gettig, as \$2,000 would not miss that trio into line and Andy would not miss that sum. The trouble is that Andy does not care to be popular at any price, and it is even hinted that he gets into these arguments with players and magnates for the purpose of attracting attention to himself, as no prefers notoriety to popularity. self, as he prefers notoriety to popularity.

Scott looks well. He is down to playing weight and after his one season's experience here is satisfied that his work will meet with the approval of the cranks. Scott is looked on as one of the coming pitchers in the Western League, and in the absence of Phillips, who is probably gone for the season, at least, and of Foreman, who is sulking in his Baltimore home, he will be expected to lead the pitching corns, unless Jot Goar shows up in his old-time form.— Indianapolis News.

Bill Phillips' record in the Western League last season shows him to be nothing short of a remarkable pitcher, Phillips pitched thirty-nine full games, and of this number he won twenty-nine, losing but ten. This is a record of which Bill can justly feel proud. Of course, the Western League does not class with the National League, from an artistic standpoint, but a pitcher who can lead that league, as Phillips did last season, is sure to hold his own in any company. Such is the conclusion of J. Ed Grillo, and he is not alone in that opinion.

They have been studying the history of the county for a short daily period during the last three weeks. The illustrations are original according to what each pupil's idea of what is interesting. They are all very nicely done and show that the ability to draw is more universal than people suppose. Freda Wulfing has a good drawing of Convention hall, Ella Frost has one of the postoffice and Constance Jaccard has two maps, one showing the size of Jackson county in 1825 and the other at the present time. The pupils of the Adams school had tree planting exercises Friday afternoon. Charles B. Kurtz, who presented the trees to the school, was present and gave a little talk to the children, telling them how to care for their new charges. Superintendent J. M. Greenwood was also present. The two trees were named "Abraham Lincoln" and "Henry W. Longfellow."
